## AMERICAN CUSTOMER SATISFACTION INDEX

### *Retail and Consumer Shipping Study 2021-2022*

March 1, 2022

Customer satisfaction is a driving force that impacts the financial outlook of individual firms and the health of the U.S. economy at large. New results from the American Customer Satisfaction Index (ACSI®) provide customer satisfaction benchmarks for six retail industries—gas stations, general merchandise retailers, specialty retailers, drugstores, supermarkets, and online retailers—as well as consumer shipping and the U.S. Postal Service. The ACSI also captures consumer opinions about critical elements of the customer experience, tailored specifically to individual industries. Overall, customer satisfaction with the Retail Trade sector drops 0.5% to an ACSI score of 75.1 (100-point scale).

The **ACSI Retail and Consumer Shipping Study 2021-2022** is based on interviews with 36,517 customers, chosen at random and contacted via email between January 11, 2021, and December 20, 2021. Customers are asked to evaluate their recent experiences with the largest companies in terms of market share, plus an aggregate category consisting of “all other”—and thus smaller—companies in each industry. For gas stations, customer satisfaction is aggregated at the industry level.

## Gas Stations

### AMERICAN CUSTOMER SATISFACTION INDEX: GAS STATIONS

ACSI survey data are used as inputs to the Index's cause-and-effect econometric model, which estimates customer satisfaction as the result of the survey-measured inputs of customer expectations, perceptions of quality, and perceptions of value. The ACSI model, in turn, links customer satisfaction with the survey-measured outcomes of customer complaints and customer loyalty. ACSI clients receive confidential industry-competitive and best-in-class data on all modeled variables and customer experience benchmarks.
